Kickback Lead Return & Refund Policy

At Kickback, we strive to maintain a trusted platform where contractors and businesses benefit from qualified referrals. While we do not guarantee results from any lead, we do offer a limited return policy for situations where the lead is clearly invalid.

> Important Note:
Refunds and credits are not guaranteed. All refund decisions are made at the sole discretion of Kickback. We will use the following guidelines to evaluate whether a refund or credit is appropriate, but each request is reviewed case by case.

Situations Where a Refund or Credit May Be Approved

Refunds or credits may be considered if the request is made within 5 days of lead purchase and the lead meets one of the following:

1. Invalid Contact Information

Non-working phone number or email

Fake or clearly incorrect data

2. Duplicate Lead

The same client was submitted and purchased by you through Kickback within the past 30 days

3. No Awareness or Interest from Lead

The client says they never requested or agreed to be contacted

The contractor submitted a cold or irrelevant contact without permission

4. Clearly Fraudulent Submission

Spam, self-referrals, or fake leads submitted for payout

Situations That Do Not Qualify for Refunds

Refunds or credits will not be issued for:

Leads that did not convert into a sale

Clients who changed their mind or selected another provider

Leads where the buyer delayed contact or had poor follow-up

Price objections or low-budget clients

Service requests that fall outside of your coverage area (unless filters were ignored)

How to Request a Refund or Credit

1. Go to your Purchased Leads dashboard

2. Select “Request Refund” next to the lead

3. Provide the reason and any supporting details

4. Our team will respond within 2–3 business days

If approved, we will either:

Issue a credit to your Kickback wallet (default), or

Process a refund to your original payment method (upon request)

Fraud Monitoring

Kickback reviews all refund activity for potential abuse. Excessive, repeated, or clearly dishonest requests may result in:

Refund denial

Account suspension or termination

Withholding of unpaid earnings

Notification to employer of dishonest actions while operating under the companies name
